BODEGAS Y VIÑEDOS VALDERIZ

Valderiz De Chiripa 2023

An uneven year, with a moderate winter and a hot spring that brought forward budding. High summer temperatures and scarce but timely rainfall promoted early ripening of the grapes. There were two harvests, marked by heavy rains in mid-September. It was necessary to make quick decisions and carry out exhaustive monitoring in the field and in the winery.
September until the middle of August.
