BODEGAS Y VIÑEDOS VALDERIZ

Valdehermoso Joven 2025

A very difficult harvest due to mildew, caused by heavy rainfall and moderate temperatures, which led to the loss of part of the crop, despite intensive efforts to use organic treatments in the vineyard. The genetic material of our vines proved to be key in demonstrating resilience to adverse weather conditions.

VARIETY:

100% Tinta del País.

SOURCE:

Grapes sourced from winery´s own vineyards.
Varied soil type.
Yield: 5.500 kg/Ha.
